

## Offshore Cementer/Fluids Field Specialist

**Would you like to come join the growing Big Blue Schlumberger?**

**Schlumberger is the world's leading provider of technology to the global energy industry, and we need more skilled and energetic people**

The Fluids Field Specialist is part of the Well Construction team. They are responsible for the preparation and supervision of both the Well Integrity / Cementing and the Drilling Solutions / Fluids treatment at the Wellsite.

For this specific job the focus will be on the cementing job for a start, but overall expected to be a mixed position working as both Fluids Field Specialist and the Cementer

**To succeed in this job, you need to:**

- Make sure that the operator is given the best possible advice and guidance to achieve the best possible results, assuring compliance with SLB Service Quality and HSE standards.
- Make sure you maintain daily an adequate rig site chemical inventory and an accurate record of supply and consumption A rig inventory list shall be maintained daily
- Perform Cement pumping, FIT, LOT and other cement pump related tests.
- Weekly physical check of the stock on board the rig shall be made (for both WIT and DS products).
- Supervise all treatment of drilling fluids or other fluids and ensure all solids control equipment is operating in a safe and efficient manner.
- Be a "I keep it tidy" kind of person
- Ensure that all test equipment is well maintained and regularly calibrated
- Be responsible for cement job preparation, chemical mixing, and associated paperwork related to HSE and Service Quality standards.
- Representative at offshore operator meetings, offshore pre job/post job meetings.

**You must have:**

- Trade certificate or educational certifications
- Good computer knowledge
- Fluent Danish and English skills, written and oral

**We hope you have:**

- 3 years of experience in a similar job with some cross training experience.
- You must have a good eye for quality, safety procedures and be detail oriented.
- A good spirit and see the importance of a smile.

**We can offer:**

- International working environment and career opportunities through the Schlumberger system
- Opportunity to learn and grow within the company across business lines
- Good working environment
- Competitive salary and benefits
